

TEXAS.—A late number of the Texas Telegraph contains the following items, which we have not seen published:—

The Telegraph, in commenting on the large sums invested in the public works, banks, state credit, and institutions of the United States, by Great Britain, remarks, that it wishes that only the twentieth of the amount was invested in Texas, as that republic would be enabled to release Zacatecas and California from Mexican misrule, and leave the United States to calculate the expense of annexation. Texas, aware of the justice of her cause, will take the advice of one of her patriotic martyrs—"GO AHEAD."

Emigrants are now entitled to 640 acres of land, if single men, and 1280 if married. With such inducements all who value their interests should avail themselves of it.

Provisions of all kinds were high, and so were rents. Flour on the 2d inst., was selling at \$15 a 20 per barrel, sugar, coffee, and tea, at about two or three times the price in New Orleans; corn two dollars per bushel, the price of board ranges from 25 to 35 dollars a month; mechanics obtain from 3 to 8 dollars per day; rooms from 20 to 30 feet square rent at 40 and 50 dollars per month; common pine boards at \$100 a 150 per thousand; town lots at \$500 a 5000 and upwards; in short every thing is exceedingly high.

The Hon. Ira Ingram, has resigned his seat in the legislature.

The Telegraph contains the vindication of Harden Edwards, repelling the charge of having embezzled the public monies of the republic—his defence is able, and we think it sufficient to exonerate him from so serious an accusation.

CHARLOTTESVILLE, Va. May 20th.—More hidden treasures found.—We understand that Mr. Burrus Munday, while engaged in removing a heap of stones on the land of John Douglass, Esq., in the northern part of this county a few days since, discovered the remains of a wooden box, containing four hundred and forty-nine doubloons, amounting to near \$7,500 dollars. The fortunate finder is Mr. Douglass's overseer, an industrious worthy man, who will no doubt make a proper use of the money.—Advocate.

FROM NEW ORLEANS.—Nathaniel Townsend, Esq., has been recognized as Texas consul, for the port of New Orleans.

One hundred thousand dollars in specie arrived at New Orleans, from Mexico, on Saturday the 21st inst. The amount of specie received on Saturday and Sunday and Tuesday, was \$204,498, exclusive of ingots of silver, the weight of which was not ascertained.

MURDER IN BROOKLYN.—On Monday night, an Irishman (whose name we could not learn) about 63 years of age, who keeps a small rum shantee at the corner of Atlantic and Smith streets, murdered his wife, by stabbing her in several places with a large knife, while under the influence of liquor. He has not as yet been arrested.—Express.

FROM FLORIDA.—By advices at Charleston from Black Creek, it appears that the Chief Cohado came into fork Mellon the 17th and stated that the whole body of Indians would proceed to Tampa the 21st inst., to reach which would require six days.

MR. WEBSTER.—The reception of Mr. Webster at the West is a gratifying proof that exalted talents and patriotism are appreciated and honored. His whole journey has been a triumphal procession. The citizens of Kentucky received him with more than their proverbial frank and friendly hospitality; and we also learn that the citizens of Nashville have invited him to take that place in his route. Should he do so, he will probably not leave the Hermitage unvisited.—Id.

A FACT.—A stage passenger took breakfast the other morning at a tavern between this place and Boston, and handed the landlord a five dollar note of the U. S. Bank, which he took, after eyeing the "rag" very closely, and handed the gentleman back four dollars in bills and fifty cent piece: the traveler took stage again, and had proceeded ten or twelve miles, when the landlord came up on horseback, with the U. S. note in his hand—"Taint a good un—ther's a discount of ten per cent." Well how much shall I give you? said the traveler. Four dollars fifty, replied the inconsiderate landlord, a good Jackson man by the way. Four and a half! Agreed hand me the bill. He then handed the landlord the same four dollars and a half he had that morning taken from him, and pocketing his U. S. Bank bill, he proceeded on his journey. He thus got his breakfast gratis, without breaking a five dollar note, that commands a premium in many places, and is at par every where.—Clarendon Eagle.

COUNTERFEITS.—One dollar bills on the Bank of Cleveland, altered to 20, are now in circulation. One was shown us on Thursday. It has the figures 20, in a large die, impressed in seven places, and is very clumsily done. It is payable to Lewis Cass. Signed N. C. Baldwin. Prest. and A. Seymour Cashier. The Cleveland Bank never issued any \$20 bills.—Massillon Gaz.

SUICIDE AND MURDER.—The Indiana published at Charleston, Ind. states that an individual named Cole, formerly resident of that county, succeeded in obtaining a promise from a young girl, whose parents live near New Lexington, in that state, to elope with him. They proceeded on their way to Vernon, where he became very much intoxicated, and seating himself beside his victim on a log by the way side he deliberately drew a knife from his bosom and plunged it into her breast. With one scream, that brought the neighbors to the spot, she expired. The murderer instantly fled.

The new locomotive Railway performed the trip from East Brunswick to Rahway, 10 miles on the N. J. railroad, on Tuesday in 21 minutes—a mile in 2 min. 6 sec.

IMPORTANT DECISION.—A case of some importance to travellers was tried in the Court of Common Pleas, Boston, on Tuesday. It was an action for damages brought by William Lowther, Jr. against Benjamin Wrighton, a stage driver, for an assault. Plaintiff took an inside seat in the coach at Providence. On arriving at Pawtucket, the defendant requested him to take an outside seat to accommodate some ladies who wished a passage. He first declined, but being told that the ladies must take the outside if he refused, he got out of the coach, took his valise, and said he would go no farther. The driver then demanded twenty five cents fare, which Lowther refused to pay and Wrighton then seized him by the collar, and threw him against the wheels of the coach and took the valise from him. The valise contained money and other valuable property, and Lowther, rather than part with it got upon the top of the coach and came to Boston, and brought this action for damages.

A MAN HANGED BY MISTAKE.—The New Hampshire Statesman says, on Friday the 5th inst. the neighbors of Samuel Carr, of Antrim, N. H. were called by an alarm of distress to his house.—Two of them, very respectable gentlemen entered the house and found Carr beating his wife with a chair which he had nearly shattered to atoms upon her person. They immediately secured the lawless monster, tied his hands, and in order to secure him in the house until the proper authority could take him into custody they fastened a rope round his neck and secured it to some immovable object and went in pursuit of the municipal officers of the town. Carr was left alone in a room, where they found him on their return a corpse! He had fallen down in such a manner, being drunk, as to produce strangulation. No blame is attached to his neighbors by those acquainted with the circumstances.

JUNE.—We have had a week of clear, warm, glorious weather, such as could not fail to light up the face of Nature, and warm the heart even of a (planted potato.) May with her chill sunshine, frosty nights, and abominable North-Easters has at length taken her unlamented departure; and Earth now gives promise of an ample though late harvest. Vegetation has not been so backward on the first of June for many years, but a month of such weather will remove all cause of apprehension. There must be great crops this year—if not cities must starve and the country remain bankrupt. The Banks and the merchants can do nothing but bear; the manufactures and workshops but little more; the meadows and fields must do all this year. When the granaries begin to discount freely and reasonably, we can breathe again, and venture to look into the future.

N. Yorker.

THE MAILS.—We are gratified in being able to say that our mail arrivals have, for the last few days been improving. The derangements of which we have complained, originated we understand at Buffalo. The Post Master of that place, in conformity with what he supposed to be his duty, has until recently been in the habit of making up the mail for the West, generally, for "Michigan State," and has given directions to the Captains of the boats to leave them for distribution at which ever of the two places (Detroit or Toledo) they might first stop. Consequently, when the boats have come here first, they have left the mail at our office for distribution, and when they have stopped at Toledo on their way here, they have been left there.

But we are now enabled to state that the mails now are, and hereafter will (until different orders are received from the Department) be made up exclusively for "Detroit distribution." In consequence of this direction we have for the last few days received our New York and Washington mails in five full days, which is as quick as can be reasonably asked for.—Detroit Free Press.

NEW JERSEY.—The Legislature of this State convened at Trenton yesterday, agreeably to the call of the Speaker of the House. The House organized and adjourned over till to-day, many of the members not having arrived. We give the following extract from a private letter dated May 22d, 1837.

"The general impression here is, that a satisfactory and sufficiently liberal bill will be passed authorizing the course which has been adopted by the several banking institutions.—There are perhaps

a few members who have already come in, who do not, from their position, view the whole ground in the same aspect as it strikes others who have directly observed the financial operations of the country in their present onward course, or who are connected with trade; but there are very few, if any, who do not admit that to drive the banks to paying specie, or to wind up their concerns, would be perfectly suicidal, & disastrous to the varied interests of the whole community."—Newark Daily Advertiser.

Mr. Scott, a celebrated clergyman in London, is about to migrate with a colony to Wisconsin. Mr. Scott is of the New-Jerusalem church, and will visit this country for the avowed purpose of promulgating the doctrines of that church among us. He is represented to be a man of great eloquence, learning and piety.—Baltimore Sun.

EXTENSION OF MISSOURI.—The Pennsylvania Inquirer of Wednesday, says: The President of the United States has issued a proclamation, that the Legislature of Missouri has consented to the terms of extinguishing the Indian title to the territory between her western boundary and the Missouri river, that therefore according to the act of Congress of June, 1836, the jurisdiction and the bounds of the State is extended westward to said river—the title of the lands being reserved to the United States.

GALVANISM derived its name from the philosopher, who published it to the world. In Galvani's study there was a table, upon which lay some frogs, that were prepared for a broth for his wife, who was unwell. Near these was an electrical machine. A student casually touched, with a silver probe, the crural nerve of one of them, which occasioned convulsions on the part of the animal. Galvani was absent at the time; but the prying curiosity of his wife, who was present, did not allow it to escape her observation. When the philosopher returned, she informed him of the strange occurrence, and attributed it to the influence of the machine. From these hints, he proceeded to investigate causes, and soon detected the erroneous supposition of his wife; but established the science of Galvanic electricity. This instance of the utility of female inquisitiveness, and of the immense importance of a simple discovery to a cultivated mind, occurred in the year 1780, at Bologna in Italy.—Essex Banner.

CORPORATION NOTES.—The corporation of Rochester, for the purpose of carrying on the public works of the city, will issue \$6,000 worth of notes payable in February 1838—receivable meantime in payment of any taxes due the corporation. In the difficulty of raising money now, this seemed the best course for averting the evils which would result not merely from the stoppage of every necessary improvement, but from the ejection of many laborers from employment at a time when, in the failure of some other employment, there is strong necessity for keeping in the public service all who can with propriety be retained.—Rochester Democrat.

SPECIE IN THE WEST.—The Dayton (Ohio) Journal of May 23, says—"Gen. BLACKBURN, the receiver of the Lima Land Office passed through this place last Thursday on his way to Cincinnati to deposit about \$25,000 in gold and silver in the Commercial Bank. On his arrival there finding the Bank had suspended specie payments he brought the dollars 'back again,' and deposited them in the Dayton Bank, which continues to redeem its notes with specie.

The receiver of the Fort Wayne office was here on Saturday with about \$10,000 of 'hard stuff,' destined for the Lawrenceburg and Richmond branches of the Indiana state Bank.

FORTY TWO STEAMBOATS are now actively employed on Lake Erie; and six others are being built.

NEW TAILORING ESTABLISHMENT.
THE subscribers would inform the inhabitants of Maumee city and its vicinity, that they have entered into co-partnership in the Tailoring business, under the firm of Case and Meacham. They have taken a shop in the second story of the building recently erected by Messrs Williams and St. Clair, directly over their Dry Good and Drug Store, on the west corner of Erie and Conant streets. From long experience in the business, and by strict attention to style and fashion, they flatter themselves that their work will give satisfaction to all who shall be pleased to patronize them. Their charges will correspond with the quality of style and amount of work laid out on the garment, and they are determined that for neatness, style, despatch and prices, their establishment shall not be surpassed by any in the State. They therefore solicit a share of public patronage.

NEW AND CHEAP GOODS.—The subscribers are now receiving direct from New York, and opening at their new store, three doors east of the post office, a large and general assortment of merchandise, consisting of dry goods, groceries, hard-ware, cutlery, queens-ware, books, boots, shoes, hats, and bonnets. Also a large and general assortment of drugs, medicines, paints, and dye-stuffs. CASTINGS—Such as hollow-ware and stone ware. All of which will be sold extremely low for the ready, such as cash or country produce. There is also a tin and copper factory connected with the above establishment; where the public can always be accommodated with ware whole sale and retail—also with job work at the shortest notice and best style. Now as the subscribers flatter themselves that in quality and quantity their stock is not surpassed by any in the Maumee valley, and as they intend making Maumee city their permanent residence, they hope to share with their friends and the public in a liberal patronage.

GREAT SALE OF VILLAGE LOTS AT Defiance, Williams Co. Ohio. 400 village lots, well situated in the town of Defiance, will be offered at public sale at the court house in said town, on the 3d, 4th, and 5th days of July next, commencing at 10 o'clock A. M. on said day.

The terms of payment will be one fourth in hand, and the remainder in two equal annual instalments, with interest annually.

Defiance occupies a commanding position, and is decidedly the most beautiful site for a town, that is any where to be found on the western or even eastern states, has so high a reputation for beauty, pleasantness and healthfulness—and when viewed in reference to its commercial advantages, its future importance becomes obvious. Like some other places on the Maumee, Defiance has been but moderately advancing, having been retarded by the slow movements of the state in the construction of the canal; but our prospects now brighten. Thirty miles of the easterly division of the Wabash and Erie canal is already let to contractors; the work of excavation is rapidly going on, and we were informed by the chief engineer, that the whole line will be let through Defiance to Indiana, during the present season.

Unseduced by the ravages of the speculator, surrounded by the most fertile land—rivers and canals concentrating here from every direction—Tiffin river from the north, the Auglaize the east and West the Maumee river, and the Wabash and Erie canal—Defiance is destined to become a great and flourishing town.

The enterprising emigrant, of whatever profession, or calling, will find at Defiance ample scope for his industry, and a sure reward for his enterprise.

STATE OF OHIO } Court of Com. Pleas.
LUCAS COUNTY, ss. }
James W. Knaggs, }
vs. } In Chancery.
William Clark. }

The defendant is hereby notified that on the 20th day of April, A. D. 1837, the complainant filed his bill in said Court against said defendant, setting forth that on the 9th day of July, A. D. 1836, the said defendant representing himself seized in fee simple of a certain tract of land lying and being in said county of Lucas, and described as the east half of the tract confirmed to Whitmore Knaggs, the said tract described as follows, in the patent of the United States to the said Whitmore: viz, beginning at a post standing on the border of the Miami of Lake Erie, between this tract and a tract confirmed to Samuel Ewing, N 35, W 35 chains and 83 links to a post—thence N 55 deg. E 18 chains and 92 links to a post—the S W corner of the tract confirmed to Wm. Brown—thence S 35 deg. E 317 chains to a post standing on the border of Miami River, aforesaid, thence along the border of said River, up stream 8 50 deg. W 8 chains and 47 links—thence S 65 deg. 30' W 10 chains & 56 links to the place of beginning containing six hundred acres,—and being indebted to said complainant in the sum of \$5000 due one year from the 4th day of July, 1835, for the security and payment of said sum of money, when it became due, made and delivered his deed of mortgage of said described land, on the said 9th day of July aforesaid, and delivered the same to the complainant.

The prayer of the bill is that an account may be taken of the principal and interest due on said mortgage; and that the said mortgaged premises may be sold, and the proceeds applied to the satisfaction of said principal and interest, and for further general and special relief. And the said William Clark is further notified that unless he appears and pleads, answers or demurs to said bill, within sixty days after the next term of said Court, the said James W. Knaggs will, at the next term thereafter, apply to said Court to take the matters of said bill as confessed, and to decree thereon accordingly.
